

HOT AIR BALLOONING

PASSENGER BRIEFING –

1. **DO NOT SMOKE** in or near the aircraft. *Propane is Explosive!*
2. Stay clear of the inflator fan.
3. Do not enter the basket until the Pilot invites you to do so.
4. Enter the basket carefully; you may use the uprights to help yourself in.
5. Do Not Touch the fuel hoses, propane tanks or aircraft instruments.
6. Do Not Touch the cables [yellow rope handles are okay].
7. Keep hands and arms inside the basket at all times.
8. **LANDINGS MAY INCLUDE HARD, FAST, ROUGH IMPACT WITH THE GROUND!** Read the *Preparation for Landings* Instructions on the reverse side.
9. The Pilot will tell you when to get in after the balloon is standing up.
10. Once in the Basket, stay in until given the okay to exit the by Pilot. We count on your weight for buoyancy control. Please stay in the basket until advised to exit!

Today's Date: _____

I have heard, witnessed and understood REED BASLEY explain, in detail, the above Pre-flight information and have no questions.

I fully understand not only the above information, but the fact that Hot Air Ballooning is a "participatory sport" that may result in injury or death.
